 - Professional Communication and Soft skills
-

PROJECTS

Grocery App

Wrote code for a grocery-app using Flutter, I was provided with a Figma Prototype and created exactly same working Mobile app which was fully responsive.

BMI Calculator

Using Flutter-Dart, Developed a fully working Body-Mass-Index calculator for Android and IOS mobiles as a personal project.

Dice Roller Game

Developed a game that offers an interface with two dices which gives a random dice face on every tap. Used my own logic building in making

PROFESSIONAL EXPERIENCE

Make It Happen (Start-up)

April 2023- Present

Full Stack Web Developer

- Started my own startup instead of going towards freelancing platform
- Started generating leads and found clients
- Began to develop understanding of market and client dealing
- Conducted One-on-One meetings with the clients for better understanding and meet their desires
- Used technologies like HTML, CSS, Bootstrap, JS, WordPress, Webflow and Shopify for solving client's problem and developing a product upto their satisfaction
- Created 40+ websites including personal and client's projects
- Got to know how FTP works. Hands on experience using FileZilla Client
- Managed Databases, Hosting, Domains and their troubleshooting

Flutter Mobile Development

- Worked under the mentorship of Senior Flutter Developer team
- Worked on real projects
- Learnt more about responsiveness with Widgets and Media-Query
- Learnt more about Material library
- Managed to work under a timeline and meet deadlines
- Increase in confidence by working with professionals
- Logical thinking and how to design certain layouts using Rows and Coloms.
